→ **Required investment**

→ **Current situation**

Next steps - required investment

To implement the next steps the following investment is required:

- 100,000 Euros this year (of which 50,000 by the end of October)
- 200,000 Euros in 2019 (100,000 in March and 100,000 in July)

These amounts can be applied by turbo building blocks and / or silent partners.

With the turbo building blocks, MYWEBSPORT-systems are pre-financed or intermediately-financed for interested billiard clubs for a test phase.

The interest for the turbo building blocks is 5% and is guaranteed by revenues from the maintenance fee, the usage fee and - as explained above - even more by the new banner ads.

The risk for all involved is constantly reduced. This benefits MYWEBSPORT itself and of course the investors.

"The investment of the shareholders brought me here, thank you very much for this trust - Now it's about the last push that brings the breakthrough. If you want to be part of it, who likes to support this last kick, who wants to know more - call me, write to me - I am available for all information and views. "

If you are interested, you can request the contract about silent partnership and the agreement for the turbo building blocks at info@mywebsport.com.

Current situation

The recently completed steps and what is currently happening can best be expressed by the following keywords:

- Close cooperation with the billiards World Association UMB
- 3CC WORLD MASTERS in Seoul in July 2018, an official tournament in cooperation between MYWEBSPORT and the UMB with the top 20 players in the world rankings. 200.000 Euro prize money.
- Close cooperation with the South Korean, Greek and Turkish Federations
- Installation of the banner in the livestream
- Tournament series with the UMB fixed for 2019
- Notable increase in international interest.

The new banner in livestream makes an attractive earning opportunity for the clubs with MYWEBSPORT. These will be a major earnings asset for many clubs in the future. The most asked question of the interested club officials: "Can the club earn money with MYWEBSPORT?" can finally be answered with "YES".
